#### COMMERCIAL.

HONOLULU, JULY 3, 1888. The principal receipts of domestic produce, for the week, were 26,857 bags sugar and 5.157 bags rice.

The value of exports to San Francisco by the Whitmore, Castle, Sonoma and Zealandia were about \$104,000.

The exports of cereals from Manitoba in 1887 are estimated to bave been 25,000,000

The world consumes annually about 650,-000 tons of coffee. Jamaica furnishes 5,000 tons, East India and Ceylon, 25,000 tons, Java, average crop, from 60,000 to 90,000 tons, and Brazil from 340,000 to 380,000 tons.

The San Francisco "Grocer and Country Merchant" of June Sth, says that values in the wool market have dropped to lower levels than ever before known on the Paci-

California exported 1.155,720 pounds of boney in 1887. The principal points of export for this article are Australia, China, Hawaii and British Columbia.

The Fresno Expositor says that the melberry thrives in that country on the ditch banks and the climate is well adapted to the rearing of silk worms and predicts that in a few years the San Joaquin valley silk will rival the imported article. One experimenter had received 4% ounces of silkworm eggs from the State Board of Sericulture. From this lot of eggs between Sericulture. From this lot of eggs betwee 150,000 and 200,000 worses were natched.

San Francisco received the first fresh figs of the season on the 5th of June from Solano Conoty.

Following is Williams, Dimond & Co.'s Circular, received by last mail : San Francisco, June 19, 1888.

Our last circular was dated May 22d per

steamer Australia. SUGAR.—There is a large demand for refined sugar both for local consumption and overland shipment. Both refineres are taxed to keep up with their orders and this has caused an advance in prices. On June 1st the California Refinery advanced Yellows 'ye per lb. The American made no change, having only a small stock of this grade. On the 8th inst, the California advanced prices of all grades 4c per lb. and on the 10th again another Sc. can Refinery also advanced their prices bec per lb. on the 9th and another 15c on the 13th. There has been no change reported since the 13th and the price lists of both refineries are the same and quoted to-day as follows: Cube 614c, D. Gran, 614c, Er. C. 5% Got. C 5%c; other grades at the usual difference. It is understood however that a discount is allowed off these prices.

The fourth ship loaded by the American Refinery for New York with raw sugar was cleared on the 12th inst., making the total shipments to that port to date 23,698,900 lbs The Cuba Basis for deliveries of the Island crop under contract, advanced to 5140 for 96 test on May 31st. Since then there has been no change reported, but sales of Cuba Centrifugais have been made in New

York at the above figure. EASTERN AND FOREIGN MARKETS .-- The New York market has improved somewhat since our last report, although prices have continued about the same. The demand for refined sugar has increased perceptibly and this statement is strengthened by the fact that the Trust has opened two of its refineries in New York and one in Boston,

which were closed some months ago.

There is a healthier feeling throughout the East and a firm and steady market. The London and Continental markets have ruled firm and higher and like reports come from Cuba and the West Indies.

London quotations for Beets 88 test June were 13s 1 d. There was no change until the 8th when they advanced to 13s 414d, 11th 13s 7 kd, 12th 13s 9d. From the 13th to the 17th the market was reported dull without change and on the 18th declined to 13s 754d. Havans and Matanyas Jone 1st stock 91,213 tons against 110,349 tons same tim; last year. Stock at four ports U. K. for the week ending June 9th was 6,000 tons over the previous week or 252,535 tons against 233,676 tons same time last year. Receipts 21,500 tons, Deliveries 15,500 tons. Total stocks in all the principal countries June 7th was 1,046,316 tons against 1,134,312 tous at same time last year.

Our latest mail advices from New York dated 13th inst. state that the business transacted in raws has been limited but the market has ruled firm. Stocks are pretty full and there has not been much disposition to purchase on the spot, but there is a fair inquiry for cargoes to arrive and for shipment. Spot Muscovadoes have sold on basis of 4 21-32c for 88 test and Centrifugal at 8 5-32c, cost and freight. On the basis o these sales the market was quoted firm a 45%e for 89 test and 55% for 96 test. Sup piles both in New York and Cubs continue to be held with undiminished confidence Private cables regarding the Best crop state that the recent rains had benefited the plants but little and dry weather was still

retarding their development,
Reduced estimates are foreshadowed notwiths anding the increased acreage sown. Our latest telegrams from New York, or

yesterday, quote market steady, Cuba Centrifugals 35 test 554c. LONDON.—Beets 88 test 13s 9d. European and Foreign markets strong and advancing. Crops promise poorly. Pre-sent prices likely to be maintained and higher prices predicted for September. Prices of refined quoted on basis of 6%c for granulated.

# Memorial Recognition

At the close of morning prayer in the second congregation of St. Andrew's Cathedral on Sunday morning, Rev. George Wallace preached a sermon on the Parable of the Talents, prefaced with remarks in recognition of the decease of Emperor Frederick of Germany.

He said that on the 22nd of March they had met there on the occasion of the death of one of the most illustrious of Emperors, when they had also in their thoughts his son and successor. Now all the struggle of nature was over; Emperor Frederick was where there is no more pain and the weary are at rest. The pious resignation of the late Emperor to the will of God was the distinguishing memory of his lingering last illness. This was not a time for words of eulogy, it was not a time to think of scenes of his life, or to sum up his virtnes. He lived long enough to declare those principles that exalt a nation in righteousness. May God so help us in whatever position he places us that when the time comes for us to leave we may be found faithful. Messrs, H. W. Schmidt, F. A. Schae-

fer, H. F. Glade and other German citizens were in the congregation, also Princess Kaiulani and H. M.'s Chamberlain, Hon. C. P. laukea.

A committee of the Chamber of Deputies has passed a resolution to enter a perpetual treaty with the United States for the settlement by arbitration of disputes that may arise between that country and France.

Twenty-eighth Day.

The House met at 10 o'clock, the Presi-

Nobles Wilder, Robinson, Jaeger, Smith,

on Miscellaneous Subjects. BEPORTS OF COMMITTEES. Noble Jaeger for the Committee on Public Lands and Internal Improvements,

tention of lepers. Referred to Committee

read five reports; 1. On petitions for placing electric lights in certain localities. The placing of the lights asked for is very desirable. The difficulty in the way of placing such lights is that the plant now used is not of sufficient power to sustain the light in the lamps now in position. The matter may safely be left in the hands of the Minister of Interior, who has made his plans for the lights prayed for. The amount asked

committee hope will be granted. 2. On the petition that Government lands be sold only to residents of the dis-

for this purpose, in the Appropriation Bill,

tricts in which they are located. Recommend the petition be laid on the table.

3. On the petition for the extension of Liliha street to Wyllie street. Members of committee have personally examined the locality and ascertained that the lands needed for this road have been owned by the Government since 1880-81. Judging by the condition of the taro growing on the said lands, it does not appear as if they had been taken possession of for the pur-pose intended. The Government paid \$2,850 for these lands. Committee recommend that in future proper deeds be taken instead of simple vouchers, the existence of which may be forgotten. The proposed street would be a public improvement, but committee do not know if funds are available for the purpose, and recommend the petition be referred to the Minister of the Interior.

Minister Thurston said there is an item in the Appropriation Bill for the extension of the road referred to.

4. On the petition for the extension of Fort street to Pauca. Committee have examined the locality and, however desirable the project may be, it does not appear to be urgent at present. It will be a costly undertaking, because the lands that would have to be taken consist mainly of taro patches and being in such close proximity to the Honolulu markets, have consider able value. The unevenness of the territory is another consideration. Recom

mend that the petition be referred to the Minister of the Interior.

5. On two petitions, the one to remove and the other to retain T. A. Loyd as road supervisor of Oahu. So far as they have been able to ascertain, Mr. Loyd has been the best road supervisor Oahu ever had, and as there is no charge against him, they recommend that both petitions be laid on the table.

Minister Thurston said that Mr. Loyd is

employed by the Road Board. The com-mittee and petitioners as well seem to have made the mistake that he is road super-visor for the island of Oahu. The reports are signed J. I. Dowsett, Sr., A. Jaeger, P. N. Makee, C. Bertelmann,

Nakaleka, and were severally adopted. Rep. F. Brown reported three bills printed. Committee on Hondiula Fire Department, Election Laws, and Pounds, etc., asked further time to report, which was

granted NOTICE OF NEW BILL. Rep. Kamauoha gave notice of a bill to amend section 3, chapter LIX. of the Penal Code, and section 280 of the Civil Code. NEW BILLS.

Minister Thurston read, a first time: bills (1) to prevent the introduction of coffee leaf diseases; (2) to encourage the cultivation of coffee. ORDER OF THE DAY.

Cables—Third reading of the Electric Telegraph Cables bill. Passed. Expenses of Government—Third reading of the bill to provide for the payment of the expenses of the Government until the passage of the appropriation bill of 1888 and 1890. Following are the provisions of

the bill, as submitted:
Sec. 1. The Minister of Finance is hereby authorized to continue to pay salaries of Government officers and the expenses of the several Departments of the Government enumerated in section 3 of chapter XXXVIII. of the Laws of 1886, as amended by chapter XVIII. of the Laws of 1887 until the 31st day of July, 1885, unless a new Appropriation Bill shall be passed be-fore said last mentioned date by the Legislature now in session. Sec. 2. This act shall take effect upon its

Noble Smith moved an amendment that the salaries of the Third and Fourth Associate Justices of the Supreme Court be specified in the bill.

The proposed amendment was discussed by the mover. Rep. Kinney, Minister Thurston, Nobles Hitchcock and Richardson, and was adopted by the casting vote, of the President. The hill as amended passed. Minister Thurston here stated that he had been otherwise engaged and was not paying very close attention to the proceedings. It seemed to him that if two men are to be paid, all should be paid. There are many employees of the Government who have had no pay since March 31st, the appropriations for the services with which

ey are connected having been exhausted. He moved reconsideration of the vote by which the bill passed. The vote was reconsidered. Minister Thurston moved an amendment to Noble Smith's amendment to add the words: And also the salaries of all persons engaged in the care of quarantine, light houses, lighting streets, the veterinary surgeon, the tug Eleu, the roads of Honolulu, guards to Government buildings, water works, care of wharves in Honolulu, and the Government electric light system. Rep. Kalaukoa moved to amend by ad-

ding the unpaid bills of the extraordinary session of 1887. Rep. C. Brown moved to amend the title. Noble Richardson moved to amend by striking out all previous amendments and

passing the original bill. Noble Townsend moved that the bill, with all the proposed amendments, he re-ferred to the Judiciary Committee, Carried, Adjourned at noon, to 10 o'clock Monday
